A brilliant end to buddy punching.

The **TTELITEEK Biometric Time Clock System** eliminates buddy punching and automates employee time and attendance processing. The time clock scans employee finger and uses biometrics to instantly identify employees and record punches. Keypad enables optional supervisor-approved pin number entry. Manages weekly, bi-weekly, semi-monthly, or monthly pay periods. Includes TimeTrax™ time and attendance software. Edit employee time cards and run reports, including Time Card, Attendance, Employee Punch, Detail Payroll, Employee Detail, Hourly Summary and Employee Seniority reports. Automatically calculates employee hours, overtime and holiday hours. Creates export files for most major payroll providers, including **ADP®**, **Fidelity®**, **Heartland®**, **PayChex Preview®**, **PayChoice®** and **ProData Evolution®**. Directly syncs with Quickbooks®. Simple to set up and easy to expand with employee upgrade packages, and/or TTELITEET Add-On Time Clock Terminals.

- Scans employee finger to positively identify each employee and record punches¹
- Audible beep and card number screen display confirms successful employee punch
- Eliminates need for paper time sheets or time cards
- Includes TimeTrax™ time and attendance software
- Downloads employee punches to PC software
- Accommodates unlimited employees with **Employee Upgrades**²
- Holds up to 6,000 punches between downloads
- Enables employee time card editing
- Features payroll reports
- Manages weekly, bi-weekly, semi-monthly or monthly pay periods

¹Time Clock terminal does not store actual fingerprint.

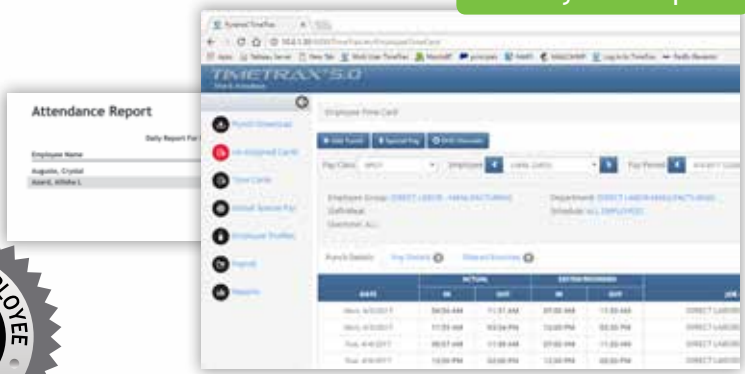

²Employee software upgrades & additional terminals sold separately.

Registers up to 1000 employee finger scans per terminal.

Holds up to 6000 punches per terminal, per download.

Increase savings by adding terminals.
